LABOR COUNCIL BACKS EDITOR IN CHARGES HANNA IS FRIENDLY TO OPEN SHOP INTERESTS

The Central Labor union in session at Labor Temple last night denounced the action of the executive board of the State Federation of Labor as "exceeding its authority in attempting to withdraw the endorsement of the State Federation of Labor from the Workers' Chronicle" and adopted a resolution maintaining the Workers' Chronicle as the official labor paper.

The office of A. B. McMillen to solicit funds for an open shop campaign. He also read from papers of the Business Men's Cooperative association to show that H. H. Hanna, was one of the incorporators of that organization, which he branded as working for the open shop.

Back Up Chronicle

The executive committee of the State Federation of Labor recently met in Gallup and repudiated the statements of the Workers' Chronicle which upheld Judge Merritt C. Mechem as the friend of labor and pointed out facts showing Judge Hanna to be in the fight for the open shop.

HOW MR. HANNA'S 'TAX EXPERTS' HAVE TWISTED FACTS

It has been shown that Mr. Hanna's campaign managers "faked" the mine-tax question as an issue to aid Chairman Arthur Seligman in avoiding national and state issues which he feared to test his own and Hanna's strength before the people.

It has been shown that Mr. Hanna has proposed a dozen substitutes for the mine output tax law; boosting the revenue to be derived from his various remedies from time to time; fitting his argument to suit the views of the particular community where he was speaking; in one speech in a mining town adopting the republican policy of deliberate consideration of the report of an expert, non-partisan commission; giving details of none of his varied proposals; quoting inaccurate and twisted figures; condemning in generalities; seeking to fire prejudice upon a question in which the best interests of the state demand business sense and deliberate judgment. That has been Mr. Hanna's campaign upon this question. It is proven by his public addresses as quoted in the newspapers supporting him and as recorded by responsible stenographers. It is a record of shifty appeal to prejudice that cannot be denied.

It has been shown that the Seligman press bureau and the daily newspapers supporting Mr. Hanna's campaign, have quoted alleged statistics relating to valuation for taxation, gross and net earnings of various mining companies, and particularly the Chino Copper company, the only large metal mine in the state, at which the general offensive has been directed; that these figures have been made to mean one thing one day and another thing the next; that they have been misquoted, twisted and distorted deliberately in the effort to back up Mr. Hanna's appeal to prejudice.

In course of this campaign by Mr. Hanna and his supporters the people, while aware that facts were being distorted, have been confused by the mass of misinformation and few voters, probably, have any well defined idea of what the mine tax situation, the law and the facts really are.

The mining companies themselves have not been inclined to enter the discussion or to participate in the campaign. Mr. Seligman counted on that, and on the lack of accurate information to give the voters.

What Mr. Seligman did not count on was the appearance of courageous citizens, without any individual interest at stake except their interest in justice and public welfare who possessed the ability and the courage and who were willing to take the pains to analyze the mine tax law, investigate its operation and report the results to the people.

George S. Downer, assistant general counsel in New Mexico for the Santa Fe railroad, is one of such men. His address on the mine tax law, printed in this newspaper last week, gave the people their first clear-cut statement of easily understood facts about the mine tax law and the unfair use of it by Seligman and Hanna. It confounded the democratic campaigners. Mr. Magee of the Journal challenged Mr. Downer to a "joint debate" on the subject. Mr. Downer promptly offered to enter such a debate in an exchange of statements to be published in Mr. Magee's newspaper, so that the people might read and deliberate upon the arguments. Mr. Magee backed up and evaded the challenge.

Mr. Downer has prepared a second statement showing how the mine output tax law has worked in New Mexico. It can be understood by any person who takes the pains to read it. It is based upon public records available to every one. It is simple, plain and final.

This statement appears on the editorial page of this newspaper today. Every man and woman who wants to know the facts about this mine output tax law and how it works, and who wishes to vote upon a basis of facts and public welfare; and not upon a basis of falsehood, prejudice and the welfare of an individual office seeker, should read this statement. It will be found worth while.

Mr. Downer cannot be charged with prejudice. He represents no interest other than the Santa Fe railway, and Mr. Hanna is authority for the statement that the Santa Fe railroad is fairly and fully assessed.

Mr. Hanna has had occasion, in his capacity as a lawyer, to attack certain phases of the mine output tax law quite recently, and is in no sense a defender of any phase of the law or its administration that needs amendment. But he is interested in square, fair play. He recognizes the danger of seeking "tax reform" on the basis of prejudice and falsehood. He has produced a statement of facts which every man and woman in this state can understand and should understand before voting on Tuesday next.

On the same page with Mr. Downer's statement, is a statement by J. E. Saint, chief tax commissioner of New Mexico, addressed to the Morning Journal. The Journal has charged that the state tax commission is "controlled." Mr. Saint shows that had the commission accepted Attorney Harry Patton's advice to declare the mine output tax unconstitutional it would not only have violated the law, but would have lost the state taxable valuations in excess of \$13,000,000 on a single mining property.

A large majority of voters, we believe, desire to vote on a basis of responsible information and not on prejudice; on facts and not on misinformation. Therefore we believe the two statements referred to are very important to voters and that these two men, neither of whom has any personal interest in the outcome of the election, but who have had the energy, courage and good citizenship to come forward with the facts, in plain statements that cannot be misunderstood, are entitled to and will receive the thanks of those voters who want to be informed.

READ GEORGE S. DOWNER'S STATEMENT ON THE EDITORIAL PAGE OF TODAY'S HERALD; READ J. E. SAINT'S LETTER ON THE SAME PAGE. WISE TAXATION LAW AND ADMINISTRATION IN NEW MEXICO ARE MORE IMPORTANT THAN THE PERSONAL AMBITION FOR OFFICE OF ANY MAN.

ed out facts showing Judge Hanna to be in the fight for the open shop. The executive committee of the Federation, now unanimously, repudiated the Workers' Chronicle no longer to be the official labor paper.

The resolutions of the Central Labor Union repudiating the action of the executive committee of the Federation, were unanimously adopted. The resolutions follow:

"Be It Resolved:—That we, the Albuquerque Central Labor Union in regular session do hereby repudiate the action of the Executive Board of the State Federation of Labor, believing that they exceeded their authority in attempting to withdraw the endorsement of the State Federation of Labor from the Workers' Chronicle, the official labor paper.

"Be It Further Resolved:—That we do maintain the Workers' Chronicle as the official labor paper owing to the fact there was no trial or investigation held by the executive board to prove any disloyalty on the part of Brother McCourt, editor of said paper.

"Committee of The Albuquerque Central Labor Union, E. C. G. Gleason, Arthur C. Culver, W. J. Shamp-han.

The following letters have been sent to W. C. McCourt, editor of the Workers' Chronicle, in support of his editorial charges that Judge Hanna, democratic candidate for governor, is friendly to open shop interests.

Albuquerque, New Mexico, Oct. 25, 1920.

Mr. W. C. McCourt, Editor, Workers' Chronicle, Albuquerque, N. M.

I wish to state that I am in hearty accord with your editorial statement in your issue of October 29, in which you point out that the best interests of labor in New Mexico are served by the republican party and in the election of Judge M. C. Mechem as governor. I think that your analysis of the situation, as between the two parties and the public records of the two candidates, Mechem and Hanna, is correct and that there can be no question in the mind of any sincere and informed union man that Mr. Hanna is an avowed open shop man, and definitely committed to that policy. Judge Mechem, on the other hand, has given fair consideration to labor during his office, service and as a candidate and his record, so far as policies directly affecting labor is concerned, is a record which every loyal union man can support.

While in Gallup last week I was approached by certain men who told me of the mine output tax law and in this matter I had not then seen the paper. I had been informed by friends of mine in Gallup that as a republican I stood in some danger of a personal attack from a certain element in Gallup which can best be described as the mob element. I was invited to attend a meeting of the executive committee of the State Federation of Labor, of which I am a member, and which was held at the cooperative store in Gallup. I was promised protection from my room to the store. On arriving there I found that the purpose of the meeting was to denounce the stand taken by the Workers' Chronicle in the state election. I was asked to sign the message which, as I have written, was sent to the Albuquerque Journal, and which was published in the Workers' Chronicle. I refused to sign this message. Immediately the situation became tense and while no specific threat was made against me I became confident that if I refused to sign the message, the attack of which I had previously heard would from another source, might and probably would be made on me. The message was re-written several times in an effort to get something which I would be willing to sign. The only part of the statement printed in the Workers' Chronicle that was read to the meeting was that at the end of the article which admitted that there was no chance for the election of Bill McGrath, for governor, which every body knows to be true. They claimed that this was a betrayal of labor's cause. I did not think so, but not being fully informed as to the facts, and under the circumstances which practically amounted to coercion, I finally signed the message. Had I been fully advised of all the facts as I now am, I would not have signed that message in any matter what the conditions surrounding the situation in Gallup.

I am a loyal, sincere union man and have always been so. I am a laborer, but I am not a laborer in the sense of a mob. I saw an illustration of what mob rule may become in my contact with a certain element at Gallup. Such men are not friends of organized labor, but its most dangerous enemies. They are working the wrong way.

I have had my attention called to the signed statement of W. S. Patterson, E. H. Swope, J. E. Saint and J. J. Hickey, endorsing Hanna for governor. Swope is a democratic candidate for an office. The other three are active democrats. They have no more right to speak for labor and to speak for the state than I have. I saw an illustration of what mob rule may become in my contact with a certain element at Gallup. Such men are not friends of organized labor, but its most dangerous enemies. They are working the wrong way.

JUDGE MERRITT C. MECHEM, REPUBLICAN CANDIDATE FOR GOVERNOR, WILL SPEAK IN THE ARMORY TOMORROW, WEDNESDAY NIGHT, ON STATE ISSUES.

UNITED STATES SENATOR ALBERT B. FALL, WILL SPEAK AT THE ARMORY TOMORROW, WEDNESDAY NIGHT, ON THE LEAGUE OF NATIONS AND OTHER ISSUES OF THE PRESIDENTIAL CAMPAIGN.

THE MEETING WILL BE OPENED PROMPTLY AT 8 O'CLOCK. THERE WILL BE SEATS FOR ALL. A SPECIAL EFFORT WILL BE MADE TO PROVIDE COMFORTABLE SEATS FOR EVERY WOMAN. BE THERE ON TIME.

MAGEE PRINTS HALF TRUTHS; WHY CHASE SUPPORTS HUBBELL; LANDOLFI GIVES HIS WAR RECORD

Speakers at Republican Rally Reveal False Issues, Deception and Sham Raised by Democrats and Hubbellites in This Campaign.

The false issues, deception and sham of the Democratic campaign were forcibly revealed by speakers at a meeting last night at the Republican women's headquarters.

Edward F. Landolfi, who is the principal speaker and accused the Hubbellites. Advertisements asking "Did Landolfi shrink, while Felipe Hubbell fought in Europe?" were answered by Mr. Landolfi who told his life history, how he had served in a New York regiment 25 years ago, and how later in his life he became ill and came to New Mexico to regain his health, which he did despite the fact that he weighed but 102 pounds when he arrived here.

Charles M. Barber, who presided at the meeting, denounced the methods of the democratic party in this county in selling out to Frank A. Hubbell for a few paltry votes for the state ticket and denounced the ineptness of Carl Magee, the Morning Journal who pretended to be fighting the democratic party and who was waging the state campaign on that issue and is absolutely silent regarding the attempt of Frank A. Hubbell, the greatest and most dangerous boss in the state, to regain control of the affairs of the county in which both Mr. Hanna and Mr. Magee live.

"Is a man honest who will do this," asked Mr. Barber.

Laurence F. Lee declared that the main duty of the republicans in this campaign was to get the facts before the people. The Morning Journal, he said, is publishing "half truths." He said it was attempting to cast suspicion and create an impression in the minds of the people that something was wrong without giving any facts to back up its assertions and he said it was the duty of the republicans to pin the democratic dog on and ask for the facts.

"Mr. Magee, I am told," said Mr. Lee, "sent Mr. F. S. Donnell to Santa Fe and with Mr. Anderson, the Jour-

nalist correspondent there, they spent many hours going over the books of the state land office. They got figures on all deals and operations of the land office. These were turned over to Mr. Magee but instead of printing the exact figures he twisted them around and then in a front page editorial demanded that the people be allowed a "peek under the lid" in the land office. He intimated that something was wrong, but said he did not know. Mr. Magee knows that the records of the land office are public and open at all times, but the people do not know it and he deliberately sought to leave the impression that something was wrong when he could not show it."

Mr. Lee said it was these dishonest efforts to cast suspicion without giving the facts that the republicans had to combat.

He reviewed the mine tax issue, the charges of bossism and pointed out that the republicans had taken steps to initiate new tax laws long before the democrats ever thought of it and asked how any man like Carl Magee could be trusted when he shouted bossism in state affairs and was ready to turn over the county to the worst boss in the state.

Ed Chase's Flop

He told how Ed Chase came to be supporting the democratic ticket and Frank Hubbell in Bernadillo county.

"I have been with Ed Chase at conventions," he said, "when I have seen Ed Chase packing the ballot in his anger at Frank A. Hubbell and in his anxiety to defeat him as a boss. Yet what has happened. Ed Chase needed a favor from the state in regard to the affairs of the National Life Insurance company. He had to get it through Gov. Larrabee. There was only one man in this county who could exert the necessary influence upon the governor. This man was Frank A. Hubbell. Mr. Chase went to Hubbell, had him intercede with the governor and now Chase is paying that favor by supporting the boss whom he once fought so valiantly to throw from our party."

"We as republicans have struggled for years to dethrone Hubbell. We succeeded in doing so and finally we have got him out of the party entirely and I hope the democrats keep him."

Mr. Barber in his address said there would be no question of who would control the county and to what thing the taxpayers would be subjected if Gutierrez and Sanchez were elected county commissioners and Felipe Hubbell assessor. He said they would be absolutely controlled by Hubbell.

Mr. Landolfi in his address said that he had understood that his opponent, Felipe Hubbell, was not writing the advertisement appearing in the Morning Journal attacking his (Landolfi's) character. He said he thought he knew who the man was but would not mention his name as he did not care to indulge in mud slinging.

Gives War Record

"But I want the voters to know my war record," he said. "I served in a New York regiment when Hubbell was a boy in his mother's arms. I won two medals for sharpshooting. (These he exhibited.) Later I was forced to come west for my health. I am glad to state that I am in good health now. But I tried to get a commission in the army when the war began. I was beyond the draft age and did not have to register. I also got a letter in reply to my request for a commission saying that because of the fact that I was an officer in a bank and that I was too old nothing could be done for me. Where was I during the war? I was right here in Albuquerque doing my bit, the same as others who were not able to go to war—and the fact that I was slithering at the Country Club, while Mr. Felipe Hubbell probably was fighting and slithering in France."

"I do not want to be the reason why you should elect Mr. Frank Hubbell, I say Mr. Frank Hubbell, because if you elect Felipe Hubbell, his uncle Frank will evidently demand to run the office for him."

Mr. Landolfi promised that if he was elected, he would be courteous and fair in his dealings to all people, rich and poor alike, though my list, the one who would not let politics enter into his office, and if the Morning Journal saw fit to support his candidacy for county assessor (but county assessors are elected in this county's paper) against Mr. Felipe Hubbell, he will appreciate it, as he certainly intends to carry out his pledge.

Mr. Landolfi's speech was repeatedly cheered.

H. B. Jamison and Mrs. Walter R. Bous also delivered short addresses at the meeting which was attended by a crowd that filled the hall.

ATLANTA, Ga., Oct. 25.—Editorializing his belief in a protective tariff policy, Senator Harding declared in a telegram made public here today that as soon as the republicans were returned to power they would inaugurate a "prompt return to the American system of protection for American industry."

HARDING FOR NEW PROTECTIVE TARIFF POLICY

'Must Return to G. O. P. Principles to Save Industry'

BY THE ASSOCIATED PRESS.
MARION, Ohio, Oct. 25.—Editorializing his belief in a protective tariff policy, Senator Harding declared in a telegram made public here today that as soon as the republicans were returned to power they would inaugurate a "prompt return to the American system of protection for American industry."

The telegram, in reply to one from Paul A. Lewart, of Joplin, Mo., related particularly to the mine industry, but extended out that along with the mine in line prices had come drastic reductions in many other lines of production, including notably agricultural production. The senator's message said:

"Under the democratic tariff law of 1913, the country was already approaching industrial disaster, when the world war began. The foreign demand was dried, and prices were so unimportant, that everything we could produce was promptly taken by the warring nations. No disaster was postponed.

Protection Necessary.
"But with the end of the war the foreign demand, not only for mine, but for a great number of other products whose protection had been removed, immediately fell off. With demand reduced and with foreign competition desperately seeking our unprotected markets, we have suddenly found ourselves at the beginning of an era in which, unless the American policy of protection is resumed, we are bound to become more and more the dumping ground for the products of all the world. Produced by cheaper labor, they must inevitably drive our own products out of our own markets, cause the suspension of production at home and bring idleness and suffering not merely to the thousands of workers in a particular industry, but to the millions of workers in hundreds of industries."

"Along with this disaster to the mining and industrial interests has come a similar disaster to American agriculture. The recent slump in prices of agricultural products has brought a great hardship to American agriculturists. Van crops were ruined under conditions which made them extremely needy, and now that the farmers have them in hand they find that prices have fallen so suddenly and rapidly that enormous losses must be sustained."

To Support Tariff.
"When the republican party is re- (Continued on page two.)

Ask Any Citizen Who Has Lived Here Ten Years!

Unpaid political advertisements crowd the Albuquerque Morning Journal. A modest retiring genius in promotion is trying to "sell" the Hanna-Hubbell county ticket to the people of Albuquerque.

Refuse salesmen sign their letters to prospective customers. The Morning Journal promised the people to help fight the return of the Hubbell machine. It has failed to make good.

The Morning Journal is muzzled. It has nothing to say on its own account, for or against the Hanna-Hubbell ticket.

Are anonymous political advertisements convincing to you? Responsible citizens who know the facts tell you, on their own responsibility, that the election of the Hanna-Hubbell ticket means Boss Hubbell for the majority of the county commission; Boss Hubbell for assessor; Boss Hubbell for county clerk; Boss Hubbell for probate judge; the five county offices that absolutely control your assessments, your taxes, the expenditure of your county revenues, the keeping of your accounts and records; the management of your schools; the probating of your wills and the administration of your estates.

What kind of county administration does this mean? Ask any man, not actively engaged in the present political campaign, who has been in business in Albuquerque for more than ten years, to tell you privately, and in strict confidence, his personal opinion of what a return of Hubbell machine government will mean to this county.

Ask any citizen owning any considerable amount of real estate or other taxable property, who is not actively engaged in this campaign and has lived in Albuquerque ten years or more, to tell you privately and in strict confidence, whether or not he desires a return of Hubbell machine government in this county.

Ask any woman who has followed closely public affairs in this county and who recalls the conditions disclosed in county government between 1905 and 1910, if she wishes a return of Hubbell machine run government in Bernadillo county and if she will vote for the Hubbell representatives on the Hanna-Hubbell county ticket.

It is of importance to you voters of more recent residence to know the facts. There are many hundreds of men and women, residents for ten years or more, who know and who will not hesitate to give you facts, if you seek information for your own guidance.

You recognize instantly that such information is more reliable than anonymous advertisements plainly designed to "sell" you the Hanna-Hubbell county ticket. Get reliable information. Don't take the word of promoters of political deals and candidates for it; they are prejudiced.

Ask your neighbors who know the record of public misdeeds in this county before the whole citizenship revolted and threw it out; and ask those who know that record if they want another period of the same kind of county government.

Mr. Hanna and his active supporters have made a deal by which they propose to "sell" Bernadillo county government back into the hands of a machine and into the control of a boss who are at one in their regard of public office as a private snap, who worked on that theory when they ruled this county before, with disastrous results; who have the same ideas, use the same methods, plan to do the same things again. The consideration in that deal is the few years the Hubbell machine can deliver to Hanna. That the deal is unworthy in any candidate for the office of governor; because it deliberately proposes to sacrifice the public welfare of Hanna's home community, to aid Hanna's personal ambitions. Such a deal is doubly unworthy in a candidate whose campaign has been based on an alleged opposition to bosses, no-man and corrupt political methods. This deal merits the active, definite, continuing disapproval of the voters, because of the character of the deal itself and because of the menace to good government involved in its ratification by the people.

Get the facts, if you haven't them already. Millions of men and women who you can trust have the facts and will give them to you. Ask one or more of your neighbors who know to tell you.
